

LAUNDRY ROOM PROTOCOL

To slow the spread of coronavirus (COVID-19), Building Management is following guidance from Health Canada and working with provincial and local public health authorities to implement precautions.

MAINTAIN A SAFE DISTANCE:

The COVID-19 virus is most commonly spread from an infected person through:

- Respiratory droplets when you cough or sneeze
- Close personal contact such as touching or shaking hands
- Touching something with a virus on it and then touching your eyes, nose or mouth before washing your hands

Please maintain a safe social distance from others while using the laundry room facilities.

EXTENDED LAUNDRY ROOM HOURS:

Please also be advised that, until further notice, the laundry room(s) will be available for use 24 hours per day, 7 days per week. The extended laundry room hours will assist our residents in maintaining a safe social distance during this period of uncertainty. Please promptly remove your clothes and bedding from the laundry machines once the washing and drying process is complete.

RESPECT YOUR NEIGHBOURS & STAFF:

If you have cold or flu-like symptoms, whether or not you have tested positive for COVID-19, please be considerate of your fellow residents and our staff. Please take the necessary precautions to avoid the spread of germs to your fellow residents and our employees. Please contact your local Public Health Authority if you are exhibiting cold or flu-like symptoms.
